

**Instruction Manual for:
AirMan TOUR Model # TOUR60**

Instruction Manual for *AirMan TOUR*

Please read the instructions before you start using the *AirMan TOUR* - for the first time. The instructions specify how to make optimal use of the TOUR and what precautions should be taken during use.

For a larger print PDF of this manual visit www.innovationvillage.com

Kit Includes:

- (1) High Pressure Air Compressor
- Built-in Pressure Gauge
- 12v Cigarette Lighter power cord
- Ball and Bike Adapters
- High Pressure Air-Flow Adapter

How to operate

1. Always check the manufacturer's recommended tire pressure for the tire to be inflated.
2. Connect the 12v cigarette lighter power cord to the cigarette lighter outlet of the vehicle.
3. Attach hose to tire valve stem.
4. Press the start button to begin inflation.
5. Monitor the tire pressure closely as you inflate.
6. Once the tire pressure gauge indicates that the desired pressure has been reached stop inflating and remove the hose from the valve.

General safety measures and precautions

CAUTION: Operating the TOUR without the vehicle engine running may drain the battery.

1. Only inflate tires to the pressure recommended by the manufacturer.
2. Always check the pressure on the built-in pressure gauge while inflating.
3. Never leave the TOUR unattended during operation.
4. The TOUR is designed for occasional use. After 10 minutes of operation the TOUR must be switched off and set aside for cooling for at least 10 minutes before restarting.
5. If the TOUR emits abnormal sounds or overheats turn off immediately and let cool for 30 minutes. Incorrect use of the TOUR may cause damage.
6. Store the TOUR in a dry and secure location, inaccessible to children.
7. Protect yourself against electric shock. Avoid physical contact with grounded sources such as radiators, electric stoves, pipes, refrigerators, etc. while operating
8. Never use the TOUR near flammable fluids or gases. Make sure your working area is well lit.
9. Keep the TOUR dry and clean to achieve maximum output and safety. Examine the TOUR and accessories at regular intervals and replace the accessories if damaged. **www.innovationvillage.com**
10. Never leave children unattended with the TOUR and never allow children to operate or play with the TOUR or its accessories.
11. Never allow anyone to pump air into the mouth, ears, nose or any body part of people or animals. Never use the TOUR as a toy.
12. **Warning!** For your own safety you should only use accessories and other parts that are specified in the instructions or recommended for use by the manufacturer. Use of accessories and parts that are not mentioned in the instructions may cause an increased risk of personal injury or damage to the TOUR.

Innovation Village Warranty

Innovation Village, LLC provides a Lifetime Warranty for the AirMan Compressor components* and warrants that each component is to be in good working order for the products life cycle whether purchased from Innovation Village, LLC or an authorized Innovation Village, LLC business partner. Should this product, in Innovation Village, LLC's opinion, fail to be in good working order during the warranty period Innovation Village, LLC will, at its option, repair or replace this product at no charge, provided that the product has not been subject to abuse, misuse, accident, disaster or non-Innovation Village, LLC authorized modification or repair.

You may obtain warranty service by delivering this product to an authorized Innovation Village, LLC business partner or to Innovation Village, LLC along with proof of purchase. Product returned to Innovation Village, LLC must be pre-authorized by Innovation Village, LLC with a RAC (return authorization code) marked on the outside of the package and sent prepaid, insured and packaged for safe shipment. Innovation Village, LLC will return this product by prepaid ground shipment service.

The Innovation Village, LLC Lifetime Warranty is defined as the serviceable life of the product. This is defined as the period in which all components are available. Should this product prove to be irreparable, Innovation Village, LLC reserves the right to substitute an equivalent product if available or to retract the Lifetime Warranty if no replacement is available.

*Compressor component is defined as the mechanical part that compresses or blows the air inside the air pump device. No other part of the AirMan air pump falls under this warranty. All other parts and accessories of the AirMan products are covered by a 1 year warranty. The above warranty is the only warranty authorized by Innovation Village, LLC. The above warranty applies to all product sold after January 1, 2009.

Note: Under no circumstances will Innovation Village, LLC be liable in any way for damages, including any lost profits, lost savings or other incidental or consequential damages arising out of the use of, or inability to use such a product.

Contact Innovation Village, LLC regarding a warranty claim(s).
